

Mason Mullendore - Senior Software Engineer – Full Stack

Kalispell, MT | (406) 909-0020 | masonmullendore@gmail.com | <https://github.com/mdmullendore>

Professional Summary

Senior Software Engineer (Full Stack) with experience building scalable full-stack applications across SaaS, e-commerce, and renewable energy platforms. Proven track record delivering user-focused product experiences, architecting API-driven systems, mentoring engineers, and leveraging AI-assisted development workflows. Passionate about applying technology to improve access to healthcare and mental well-being at scale.

Skills

Languages: TypeScript, JavaScript (ES6+), Python, SQL, HTML, CSS

Backend: Express.js, FastAPI

Frontend: React, Next.js, Redux, Webpack, Tailwind CSS

API & Auth: REST, GraphQL, WebSockets, OAuth 2.0, JWT

Data: Postgres, Redis, TypeORM

DevOps: Git, GitHub, Docker, CI/CD, Vercel

AI Tools: Cursor, Google Gemini

Work Experience

Datmos

Nov 2022 – Jun 2026

Senior Full-Stack Developer

- Designed and delivered customer-facing product experiences that streamlined content management, product discovery, and online ordering workflows, improving usability and business outcomes.
- Architected and implemented scalable backend services and APIs that supported secure, reliable communication between enterprise systems and third-party platforms.
- Partnered with product managers and stakeholders to define requirements, scope features, and deliver production-ready solutions in agile environments.
- Led code reviews and mentored developers on best practices for performance optimization, maintainability, AI spec-driven development, and documentation through constructive, growth-oriented feedback.

Thought Industries

May 2022 – Oct 2022

Software Application Engineer

- Decoupled and migrated legacy Ember core architecture to a modern React ecosystem for a multi-tenant SaaS product, optimizing frontend data models and state management for thousands of concurrent users.
- Actively engaged in Agile practices by working with cross-functional teammates in discovery and planning sessions to create engineering tickets to streamline sprint execution.
- Enhanced the platform's web accessibility using semantic HTML to meet WCAG AA standards within four months while maintaining an inclusive, user-centered experience across devices.

Datmos

Jun 2019 – May 2022

Full-Stack Developer

- Built and maintained award-winning large-scale headless storefronts for globally recognized brands, integrating CMS platforms and e-commerce APIs.
- Engineered data pipelines leveraging enterprise APIs, improving complex dataset migration speed by 5x.
- Implemented JavaScript Checkout SDKs to optimize conversion funnels, payment flows, and overall checkout experience by over 120% within 12 months.

Wonderful Union

Nov 2016 – Jun 2019

Front End Developer

- Developed and optimized custom themes powering thousands of fan engagement websites, focusing on performance, user experience, and scalable component architecture across a multi-site application.
- Enhanced multi-site application reliability by increasing frontend test coverage to 85% through unit and integration testing.

JLM Energy

Jun 2015 – Nov 2016

Software Engineer

- Led development of the company's first iOS and Android applications, enabling users to monitor energy usage and make informed decisions about household energy consumption.
- Implemented backend services that delivered real-time data to thousands of mobile application users, supporting core functionality and data-driven user experiences.

Projects

BigCommerce Headless Award (2021)

Site build: Black Diamond Equipment

- Architected a custom integration with Black Diamond Equipment's proprietary pro program API.

BigCommerce Headless Award (2020)

Site build: Yeti Cycles

- Implemented a custom OAuth 2.0 integration with Salesforce for B2B users.

Education

Southern New Hampshire University (2018)

Master of Science in Information Technology

Concentration: Software Application Development

San Francisco State University (2012)

Bachelor of Arts in Industrial Arts

Certificates

Meta (2025)

Meta Front-End Developer Professional Certificate

Apollo (2025)

Apollo Graph Developer Professional Certificate
